COMMUNICATOR WITH MONITOR WELL

DESIGNED FOR USE IN EMERGENCY MANAGEMENT CENTERS

AMERICON COMMUNICATOR WORKSTATIONS ARE MANUFACTURED TO MEET AND EXCEED ANSI-BIFMA STANDARDS. THE "STATE OF THE ART" MATERIALS USED IN MANUFACTURING THESE PRODUCTS ARE MANY TIMES MORE RESISTANT TO IMPACT THAN STANDARD HIGH PRESSURE LAMINATES AND GIVE US THE UNIQUE ABILITY TO BUILD A FREE-FORMED PRODUCT WITHOUT USING SELF-EDGING OR BUMPER MOLDING.

WE OFFER THREE VERSIONS OF THE BASIC WORKSTATION:

- STANDARD COMMUNICATOR FOR LAPTOPS
- COMMUNICATOR WITH MONITOR WELL
- COMMUNICATOR WITH FLIP-PANEL OPTION

WE OFFER MANY OPTIONAL ACCESSORIES:

- ARTICULATING KEYBOARD TRAYS
- INTEGRATED STORAGE CABINETS
- TILT-UP POWER & COMMUNICATION PORTS
- DOCKING STATION SHELVES
- SEGREGATED CABLE MANAGEMENT
- CPU TRAYS
- LOCKING CASTERS

CUSTOM SHAPE WITH FLIP-PANELS

V-SHAPE WAR ROOM

COMMUNICATORS WORKSTATIONS COME IN MANY SIZES FROM 30" WIDE TO 96" AND ARE ALWAYS MODULAR. THEY CAN BE USED TO MAKE A V-SHAPED CONFIGURATION WITH A COORDINATOR AT THE HEAD OF THE TABLE; SET SIDE BY SIDE IN A CLASSROOM SETTING; MADE INTO A MULTI-PURPOSE CONFERENCE TABLE WITH A COORDINATOR ON EITHER END OR MADE INTO A U-SHAPE. A SIMPLE CONFERENCE ROOM CAN QUICKLY BE TRANSFORMED INTO AN EOC OR WAR ROOM WITH JUST A FLIP OF THE LID.

COORDINATOR SECTIONS ON THE ENDS ARE CUSTOM DESIGNED TO FIT VARIOUS APPLICATIONS. THE ANGLE OF THE COORDINATOR DESK DETERMINES WHETHER THE CONFIGURATION IS CONFERENCE TABLE OR V-SHAPE. THE TYPICAL CONFERENCE TABLE VERSION HAS A BUILT IN CPU CAVITY WITH INSPECTION DOORS. KEYBOARDS AND MICE CAN BE STORED ON ARTICULATING TRAYS OR IN ACRYLIC HOLDERS ON THE REAR SIDE OF THE CAVITY INSPECTION DOORS. SINGLE SECTIONS CAN HAVE MULTIPLE MONITOR FLIP PANELS.

MULTI-PURPOSE CONFERENCE TABLE

THE COMMUNICATOR WITH A MONITOR WELL HAS ADJUSTABLE SHELVING TO LOWER THE MONITOR AND ENHANCE LINE OF SIGHT COMMUNICATION.

OUR UNIQUE FLIP-PANEL VERSION ALSO LOWERS THE MONITOR INTO THE WORKSTATION AT AN ERGONOMIC ANGLE. ADD THE BENEFIT OF RAPID TRANSFORMATION FROM CONFERENCE TABLE TO EMERGENCY MANAGEMENT CENTER AND YOU HAVE A MULTI-PURPOSE CONFERENCE ROOM.

STANDARD COMMUNICATOR FEATURES:

- SEGREGATED CABLE MANAGEMENT
- CPU STORAGE
- PASSTHROUGH WIRE GROMMETS
- ADJUSTABLE LEVELING GLIDES
- JOINING HARDWARE
- MULTIPLE COLOR SELECTIONS
- THREE YEAR WARRANTY

EMERGENCY MANAGEMENT CENTER

THE FLIP-PANELS IS ALSO AVAILABLE IN AMERICON'S MODULAR FURNITURE. NOT ONLY DOES IT FREE UP SPACE WHEN THE FLIP

IS IN THE DOWN POSITION, IT ALSO ADDS A MEASURE OF SECURITY IN THAT THE FLIP-PANEL CAN BE LOCKED WHEN NOT IN USE OR WHEN PEOPLE GO HOME AFTER THEIR SHIFT. TOO OFTEN WE SEE SCENARIOS WHERE MONITORS ARE LEFT ON IN OFFICES AND EVEN CALL CENTERS WHERE THE EQUIPMENT SHOULD NOT BE ACCESSABLE TO ANYONE OTHER THAN THE PERSON WHO OWNS THE SPACE.
